TRAIN THE TRAINER QUALIFICATION ON FLIGHT, MIGRATION AND THE ENVIRONMENT FROM JUNE TO DECEMBER 2016 IN NRW

Call for Applications for the BUNDjugend NRW

What is it about?

Flight continues to be a central issue and a big challenge in Germany, Europe and worldwide. In view of strengthened right-wing movements, daily attacks on asylum centers and an increasing stigmatization of refugees it is more urgent than ever to deal with the issues of migration, asylum and flight as well as with its causes. For this, well trained (both in regard to content and didactically) people of diverse backgrounds are needed to promote a multiperspective and deep understanding of the topic as well as empathy and knowledge about global interrelations. Causes of migration, flight and asylum are often deficiently dealt with in the formal and non-formal education area. The demand for qualified trainers – above all with personal experiences of flight and migration – is high and that's why you are needed:

Do you want to be trained and become active as a trainer on issues like flight, migration and the environment?

Apply for the train the trainer qualification for people with and without experiences of flight. By means of the training the BUNDjugend seeks to qualify committed people from June to December for the realization of educational workshops on topics like flight, migration, racism, solidarity and the environment.

For this purpose, the qualification provides basic knowledge on asylum law and politics, global migration movements and its causes. It deals with the functioning and effects of racism, conveys methods of global learning and education for sustainable development as well as on rhetoric, pedagogy, didactic and the conception of educational workshops.

Along with the content, the common learning process and coming together are paramount. The intensive group process and the exchange of people with and without migration history create a unique space for personal development and collective learning

In addition to the project manager there will be one or two facilitators respectively being in charge for the qualification. The training language is probably German, yet depends on the applicants. Partially or maybe completely English will be used as training language, too.

BUNDjugend

The BUNDjugend is the independent youth organization of the BUND (Bund für Umwelt und Naturschutz Deutschland) and takes part of the international network Young Friends of the Earth (YfoE). Via campaigns, protest actions and projects the BUNDjugend fights for the environment, global justice and a solidary society.

What can you expect?

- personal and professional development
- work shadowing and realization of non-formal workshops and projects in schools on a freelance basis for the BUNDjugend (optional)
- collaboration in a team of young people from different areas and backgrounds
- possibility to develop, organize and execute a workshop – alone or in a team with support of the BUNDjugend
- Successfully completing the training all participants will receive a certificate of being a “facilitator in political education on flight, migration and the environment“

Dates / Extent

The qualification comprises 5 modules of 20 lessons each (from Friday 5:00 pm till Sunday 3:00 pm) as well as a meeting for evaluation at the end. Besides, there is the option and recommendation to work shadowing and the realization of own workshops with support of the BUNDjugend. The dates were deliberately chosen in such a way to prevent any overlapping with Ramadan.
